

A Code for Geoscientific Fieldwork in Africa:

Guidelines on Health and safety Issues in Mapping, Mineral Exploration and Geoecological Research

Who should participate:

Geoscience and geoecology (geography, botany, zoology, archaeology, etc.) undergraduates and postgraduates, their supervisors/fieldwork leaders, oil and mineral explorationists, conservationists and geotourists to Africa.

Conference presentation format:

The Conference is dedicated to the presentation of a series of lectures and tutorials across the Conference sub-themes by an invited group of internationally acclaimed professionals. The sessions will be highly customized and participatory.

The submission of Abstracts/Full papers towards a Supplementary Special Issue of a reputable Journal is encouraged, but is not mandatory for registration.

Approximate Total Number of Expected Delegates/Participants/Students/Guests = 250

VENUE: Sheraton Hotel and Towers, Abuja, Nigeria

DATE: 24th – 29th June, 2018
